

## what we do.

The Sheng-Yen Lu Foundation is a nonprofit grant-making public charity. We strive to combine compassion and philanthropy with strategic grant-making to advance and promote quality health and education for all.

Each year, the Foundation will award large impact grants to programs or organizations that employ innovative approaches to addressing the ongoing inadequacies in the health and education sector.

In addition, the Foundation will dedicate a portion of its annual funding budget towards Special Projects such as international disaster relief work and individual scholarships.

### Health

We prioritize programs that link people to much needed health services and assure the provision of healthcare when otherwise unavailable.

### Education

Education is the key to success in life, creating opportunity and giving people the tools to achieve their dreams. We believe that every person has a right to a quality education.
